Some foxes have moved to higher, cooler areas because of warming.</p>	G
۴	<p style="text-align: right;">متن زیر را بخوانید و به سوالات آن پاسخ دهید.</p> <p>One of the most important parts of our body is blood. Blood is a red liquid with millions of cells. Our heart pumps it round the body all the time. More than half of blood is plasma, a clear and yellow liquid that carries red and white cells. Red blood cells are the most common type of blood cells. They carry oxygen round the body and collect carbon dioxide from different parts of the body. White cells are bigger than red cells. They defend our body against microbes. Their number is fewer than red cells. You can find millions of red cells in a drop of blood.</p> <p>It is important to take care of this gift of Allah by eating healthy foods and doing daily exercises.</p>	H

١. In a drop of blood, there are more white cells than red cells. True

False
